N56 Portable Vien Finder

Introduction

N56 is a portable vein finding device. It can project the blood vessels image on skin surface accurately and timely. The ergonomic design makes it very comfortable to hold.

Application

Assist medical staff to observe the vascular thickness, length, curve and branch information to determine the best puncture location. It highly increases the success rate of puncture thus reduce the cost and pain.

• Infant • Plastic Surgery • Varicose Veins • Fine Blood Vessels • Chemotherapy Patients • Vascular Obstruction

Function

This machine houses various user-defined functions, which can adapt to different ages, body shapes, skin colors, weights and various operating environments.

7 colors available

Suitable for different skin colors & environments

3 sizes available

Suitable for adults, children and newborns

5 levels of brightness

Adjustable projection image brightness

Sleep Mode

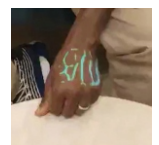

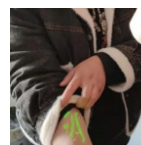

Low power saving mode available

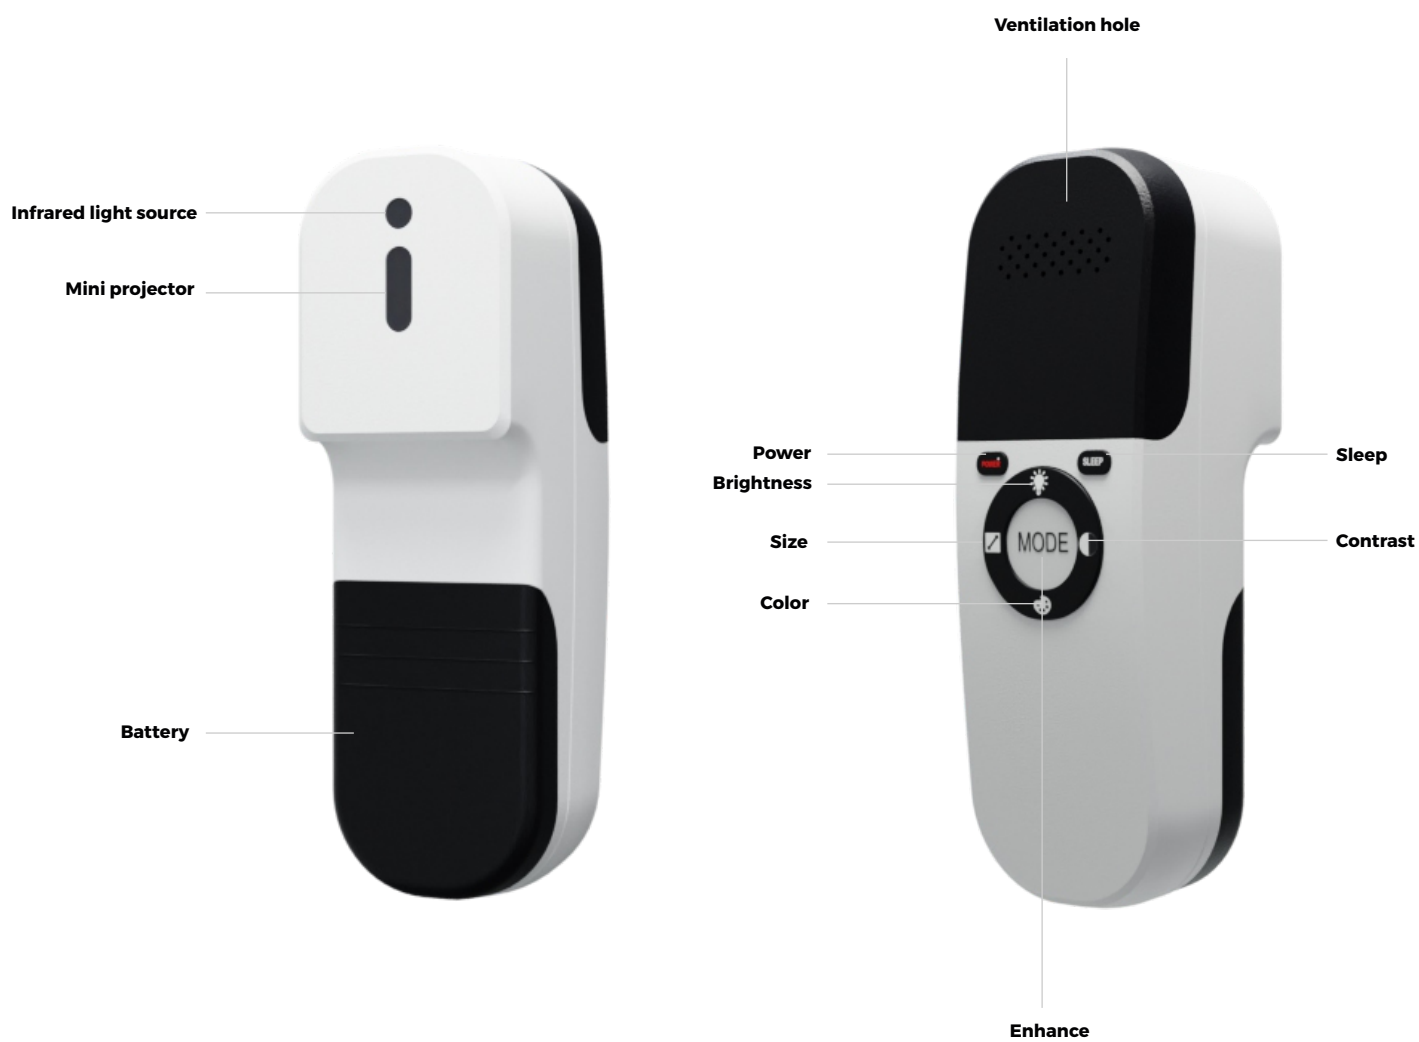

Powering Monitoring

Real-time battery monitor, low power alert, battery meter

Enhancement Mode

Enhance the clarity of blood vessel detection

Specification

Technical Parameter	
Near infrared light source:	Non-hazardous (<950nm)
Best detection distance:	5 - 10 in
Project alignment accuracy:	± 0.01 in
Low working noise:	≤ 20dB
Weight:	280g
Size:	7.8 in (L) * 2.4 in (W) * 2.1 in (H)
Battery capacity:	Panasonic 3400mAh rechargeable battery
Rated power:	DC 5V 2A
Adapter power:	Input 100V-240V, AC 50Hz-60Hz
American TI projection technology	

Standard Configuration
✔ Vein finder
✔ Charging cable and adapter
✔ Aluminum carrying case
✔ User's manual
✔ Calibration card
✔ Warranty card
✔ Surgical marker
✔ Tourniquet
☐ Table or mobile stand (optional)
